## PROJECTS

### Portfolio

<https://github.com/Rupam1112/portfolio>

- My own portfolio to showcase my professional journey.

### Weather-App

<https://github.com/Rupam1112/react-weather-app>

- React weather app to get real time weather of any place around the globe. The app shows hourly as well as weekly forecast.

### FIR labelling with IT Laws

06/2019 - 06/2019

Major Project (Graduation)

- Classifying the documents based on the IT laws that apply to it using machine learning techniques. The idea of the project was to take a legal document as input from the user and classify the sections that are applicable to it.

### Secure Route Mobile Application

06/2019 - 06/2019

Minor Project (Graduation)

- Providing a safe travel route to passengers. The application uses machine learning concepts to show unsafe areas around the route and notifies the user when they enter an unsafe zone.
